

R125

YZF-R125 Team Yamaha Race Replica

The fast track to the Rossi experience

Born from the supersport DNA of the R1 and R6, the YZF-R125 has R-series style and attitude. Its free-revving, liquid-cooled 4-stroke engine is fuel injected for near-instant throttle response, while a 6-speed gearbox lets you keep it in the power band. A lightweight Deltabox frame linked to a cast aluminium swinging-arm delivers class-leading handling. And, because it's full-sized, the R125 provides a comfortable riding position – even for taller riders. With an eager 125cc engine, a race-bred chassis and striking R-series bodywork in official Team Yamaha livery – the YZF-R125 is the perfect introduction to supersport riding.

- Dynamic official Team Yamaha graphics
- Free-revving, fuel injected 4-stroke engine
- Aggressive R-series styling
- 6-speed transmission
- Deltabox frame and aluminium swinging arm
- R6-style mid-ship muffler

Inspired by a MotoGP Legend

MotoGP is the world's leading motorcycle racing series featuring the world's top professional riders, and multiple World Champion Valentino Rossi is one of the sport's biggest names. The YZF-R125 Team Yamaha Race Replica is a special edition inspired by MotoGP and features the same striking blue and white paint and graphics as Valentino Rossi's MotoGP bike. Racing is a major influence on the design of Yamaha's R-series, and the YZF-R125 is no different. The R125 shares the same aggressive styling as the bigger R-series bikes and the same racing spirit. With styling inspired by a racing legend, the YZF-R125 Team Yamaha Race Replica gives you a taste of the Rossi experience.

Official Team Yamaha graphics

Inspired by the winning performance of Valentino Rossi and the Yamaha MotoGP team, the YZF-R125 Race Replica features graphics to match. The distinctive blue and white paint and sponsors match Rossi's YZR-M1 bike and, combined with the sculpted bodywork, the YZF-R125 looks just like a competition machine.

Large diameter front disc-brake

Yamaha is committed to using high-specification components – like the large diameter 292mm front disc brake on the YZF-R125. The compact twin-pot caliper design on the front-brake combined with the 230mm rear disc ensures smooth, controlled braking at a range of speeds and assured stopping power when you need it.

Liquid-cooled 4-stroke single-cylinder 125cc engine

The YZF-R125's advanced engine combines a 4-valve cylinder head and fuel-injection for the best possible performance. The short stroke layout gives the engine a free-revving character, which when connected to the 6-speed gearbox delivers lively acceleration.

R6-style mid-ship muffer

The mid-ship exhaust muffer helps to centralise the bike's mass for balanced handling, and houses dual catalysers for cleaner emissions. In addition, an Air Induction System introduces air into the exhaust for more complete combustion of exhaust gases, lowering emissions even further.

R-series style bodywork

With R-series style front cowling and twin fox-eye headlights, the YZF-R125 has the same aggressive supersport styling as the R1 and R6. Unlike many 125cc bikes, the R125 is built on a full-sized chassis providing a more comfortable riding position – especially for taller riders.

Instrument panel

The combined digital and analogue panel speedometer provides a clear view of all the bike's vital functions at a glance.

ENGINE	
Engine type	Liquid-cooled, 4-stroke, single cylinder, 4-valve, SOHC
Displacement	124.66 cc
Bore x stroke	52.0 x 58.6 mm
Compression ratio	11.2 : 1
Maximum power	11.0 kW (15 PS) @ 9,000 rpm
Maximum torque	12.24 Nm (1.25 kg-m) @ 8,000 rpm
Lubrication system	Wet sump
Fuel System	Fuel injection
Clutch type	Wet, multiple-disc coil spring
Ignition system	TCI
Starter system	Electric
Transmission system	Constant mesh, 6-speed
Final transmission	Chain
Fuel tank capacity	13.8 L
Oil tank capacity	1.15 L

CHASSIS	
Chassis	Steel Deltabox
Front suspension system	Telescopic forks
Front travel	130 mm
Rear suspension system	Swingarm (monocross)
Rear travel	125 mm
Caster angle	24.2°
Trail	86.1 mm
Front brake	Single disc, Ø 292 mm
Rear brake	Single disc, Ø 230 mm
Front tyre	100/80-17 M/C
Rear tyre	130/70-17 M/C

DIMENSIONS	
Length	2,015 mm
Width	660 mm
Height	970 mm
Seat height	818 mm
Wheel base	1,355 mm
Minimum ground clearance	155 mm
Wet weight	138 kg

 Yamaha Blue

1. Double bubble screen TÜV safety-approved double screen for additional protection.
2. Yoke protector High tech Carbon-fibre look yoke protector that prevents damage from scratching.
3. Seat cover Midnight Blue seat cover to match the dynamic team Yamaha graphics. Also available in Sports White and Impact Yellow.
