YBR250

The YBR250 turns every ride into a fun event. Light, compact and powered by a fuel-injected 250 cc four-stroke engine, the YBR250 has the horsepower to tackle the city, and much more. Styled with sharp, modern lines and built with quality components, this super-versatile motorcycle boasts 17-inch alloy wheels, a big 282 mm front disc brake, Monocross rear suspension, LCD dash panel, multi-reflector headlight, electric starter and double cradle steel frame.

Our designers made the YBR250 fun, stylish and easy to ride. But they didn't stop there. They wanted to create a motorcycle that would make your life easier, so the YBR250 was designed for no-hassle, low-cost ownership. It's also roomy and powerful enough to carry two in comfort – plus extra baggage if you add the optional luggage rack too – so the YBR250 makes sense on so many levels.
