TMAX

Remote management and security of your TMAX at any time

Yamaha created the first TMAX in 2001, combining the performance of a motorcycle with the comfort of a scooter and revolutionizing the two-wheel world. But the search for design perfection and innovation has never stopped.

Now, through a partnership with Vodafone Automotive, the TMAX is ready to enter the connected world. A world where connected vehicles are transforming the way we live, and work.

Using an embedded telematics system, TMAX riders can remotely manage their scooter and keep it secure with a dedicated mobile application: My TMAX Connect.

The APP gives riders access to a bike tracker, so they can locate their TMAX at any time and if the bike is moved while the engine is off, the rider receives an alert, straight to their mobile phone!

In case of vehicle theft, the telematics system sends an alert to the Vodafone Automotive Secure Operating Centre which activates the tracking procedure, follows the vehicle movements in real time and supports local police authorities for its recovery. The service is available 24/7 in 44 European countries *, in your own language, even if you are abroad.

*Service coverage in the following countries:

Albania, Austria, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France (Principality of Monaco included), Germany, Greece, Hungary, Ireland, Italy (Vatican and San Marino included), Latvia, Lithuania, Luxembourg, Macedonia, Malta, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russia, Serbia, Slovakia, Slovenia, Spain (Andorra, Gibraltar included), Sweden, Switzerland (Liechtenstein included) Turkey, Ukraine, United Kingdom.

Access a world of services with "My TMAX Connect"

Bike finder

You can geo-localise your TMAX on a map and also use the feature that indicates the route to reach your scooter by foot or with another vehicle.

Trip report

It provides the latest and historical journeys including distance travelled as well as average speed, maximum speed and position on the map.

Horn and blinkers

It enables the user to activate horn and/or blinkers via mobile/web app.

Engine lock

This function can be used if you need to remotely inhibit the vehicle engine. If the vehicle is stationary, it cannot be started. If it is moving, it will prevent it from being restarted after the ignition has been switched off.

Low Battery

You will receive a notification on your smartphone that informs you that the battery of your TMAX is low, avoiding the risk of unpleasant surprises!

Geofence

This feature enables you to set a Geofence zone around your TMAX and receive an in-app notification if vehicle enters or leaves that area.

Theft Management

In case of theft and whilst the tracking and recovery procedure is activated, for security reasons, it will not be possible to access your application for the duration of the theft.

Riding usage

The following information is available: time usage, daily and monthly distance, trip length and road types.

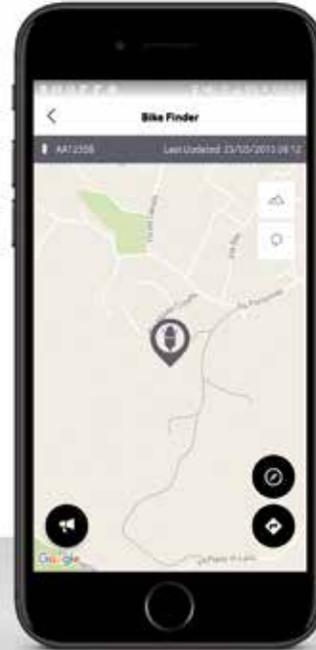

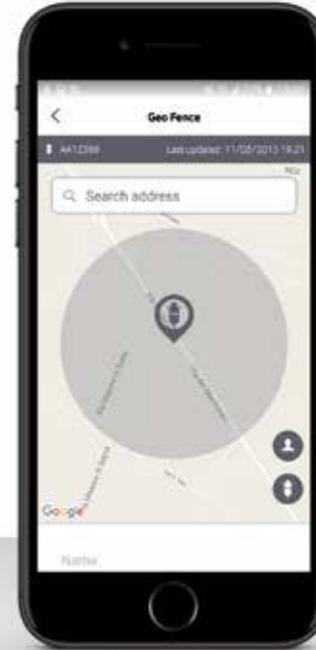

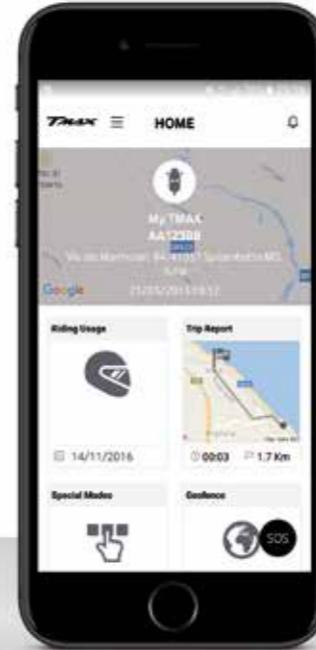

Speed Alert

You can set a specific speed limit and receive an in-app notification every time you exceed that limit.

My TMAX Connect application is compatible with most Android and iOS smartphone models. The APP can be downloaded for free on Play Store (Android) or Apple Store (iOS).

Apple, the Apple logo, iPhone, iPod touch and iPad are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc. Google Play and Android are trademarks of Google Inc.

The My TMAX Connect service is available on TMAX DX and TMAX SX versions, and the first year of subscription is free with the purchase of the TMAX model year 2017. At the end of the first year, customers will be asked to pay a subscription fee. For more information concerning the subscription, contact your Official Yamaha Dealer.

How to activate your service:

Before starting your registration, make sure you have ready:

- Your **VIN number**
- Your **License Plate Number** (if already available)
- Your smartphone with access to email

My TMAX Connect

2 To start the registration, go the portal dedicated to Yamaha customers: www.my-tmax-connect.eu
This will only take a few minutes.

3 Once you have completed the registration, we kindly ask you to contact Vodafone Automotive Customer Services to confirm your order.
The Customer Service team will complete the procedure and will assist you in the activation phase.

4 Please note that the service activation procedure requires you to be close to your vehicle in an area with GSM and GPS coverage.

5 As soon as your service contract is active, you will receive your credentials by SMS and email to download and access the My TMAX Connect mobile app.
